NICO RUBINO

Naples, Florida | Relocating to St. Petersburg, Florida (Q4 2026)
rubinonico.jobs@gmail.com | 239-227-3823 | rubinonico.github.io/portfolio

EDUCATION

Western Governors University *Remote*
Bachelor of Science, Accounting (In Progress) Expected Spring 2027
Relevant Coursework: Financial Accounting, Managerial Accounting, Federal Taxation, Business Law, Corporate Finance, Data Management. Progressing toward CPA licensure eligibility.

EXPERIENCE

NEXGEN Hyperbarics (Mark P. Rubino MD, LLC) *Naples, Florida*
Practice Operations and Technology Associate 2024 - Present
Draft clinical justification narratives and formal insurance appeal letters citing payer policy-level evidence, producing overturned adverse determinations on appealed denials.
Manage prior authorization workflows for chronic migraine therapeutics across commercial and Medicare Advantage payers, confirming patients meet payer-specific coverage criteria before submission.
Draft records demands and escalation correspondence to resolve stalled authorizations, missing documentation, and payer disputes.
Enforce federal DEA controlled substance compliance: confirm patients complete urine drug screening before controlled substance prescribing, maintain result documentation, and verify physician adherence to federal prescribing guidelines.
Built a Python OCR-to-classification-to-routing pipeline integrating the AthenaOne REST API, CoverMyMeds ePA webhooks, and fax ingestion, replacing manual document triage; architecture enforces PHI boundaries at the routing layer.
Built internal tools with Python and REST APIs to automate repetitive office workflows, cutting manual handling of records and payer correspondence.

Whole Foods Market *Naples, Florida*
Chef de Partie, Prepared Foods 2022 - 2024
Executed high-volume prepared food production in a USDA and FDA regulated commercial kitchen; maintained HACCP compliance, cold-chain integrity, and portion-cost controls.
Managed station inventory rotation, waste reduction, and real-time production pacing; supervised and trained three to five team members per shift.

INDEPENDENT PROJECTS

Independent Quantitative Researcher, 2024 - Present: built a Python research framework for systematic strategy development with walk-forward validation, HMM regime detection, and spectral graph methods; documented 50+ pages of research under version control.
Independent Developer: built document automation tooling in Python and browser-based poker engines in vanilla JavaScript. Portfolio: rubinonico.github.io/portfolio

LEADERSHIP AND ACTIVITIES

Scouting America, Troop 165 *Naples, Florida*
Assistant Scoutmaster 2022 - Present
Mentor youth in leadership and outdoor preparedness; plan and execute camping expeditions, merit badge instruction, and service projects.
